CONSUMPTION.

THE GREAT COUGH REMEDY!

RADER! have you a Cough, which you are neglecting.

Under the idea that it is only a common cold, that it will soon "wear itself out?" Let a friend tell you, in all kindness, what will soon be the probable result.

In a short time, if you continue to neglect rourself, you will begin to feel a sense of lightness and oppression across the chest, adcompanied with frequent sharp during pains.

Then a dry, hacking Cough will set in, and when you raise anything it will be a thick and yellowish, or white frothy matter, attended, perhaps, with blood. If you still take no me-licine, these unpressant symptoms will increase, and you ne-licine, these unpressant symptoms will increase, and you matter, streated, persags, with blood. If you still take no medicine, these unpleasant symptoms will increase, and you will soon have Heetic Fever, Cold Chills, Night Sweats, Copious Expectoration, and then Great Prostration. If you still neglect yourself, a few weeks or mouths will see you consign od to the grave, leaving your friends to mourn how rapidly CONSUMPTION did its work, and hurried you away.—Friend! have you no cause to be slavmed? In the above sketch you may see us in a glass, how every care of Consumption progresses, with more or less rapidity, to a fatal sketch you may seems in a glass, how every case of Con-sumption progresses, with more or less rapidity, to a fatal termination. Of all the Thousands and Midious whom this great Destroyer has gathered to the tomb, every single case began with a Cold! If this had been attended to, all might have been well but, being neglected, under the fatal decision that it would "wear itself," it transferred its deadly action to the substance of the Lungs, exciting there the formation of tubercles. Another, and another cold added fuel to the flame, until these tubercless began to soften and suppurate eaving, by their ulceration, great cavities in the Lungs. At his crists, the disease is very difficult of cure, and oftentime' sets at deflarice all human means. sets at defiance all human means.

In the latter or worst stage, this medicine will oftentimes arrest the disease, or check its progress, and will always make the patient more comfortable, and prolong his life, and is therefore worthy of a trial, but in its incipient or forming periods, Consumption is as curable as any other disease, and 'Dr. Rogers' Syrup of Liverworth, Tar, and Canchalagna,' if taken at this time, will cure it 150° AS SURELY AS IT IS TAKEN! 262 This is strong language, but we can refer you to numberless living witnesses to prove that it is TRUE And therefore, we carrestly exhort every man, woman and child, who has a Cough, or is subject to Colds, to keep medicine by you in the house; and whenever you take Cold, do not 'det it alone' to work mischief in your system, but eradicate it theroughly, at once, by this power, fully healing compound and leave ware langs unitjured, to carry you in fall vigor to a good old age! pound and have vigur to a good old age | MOTHERS!

MOTHERS!

Have you delicate, weakly children, who are always taking cold, and subject to Croup? Remember! There never was case of Croup, which did not originate in a Cold! And when your child goes to bed wheezing and coughing, you know not that, before morning, Croup may not set in, and ere you can get a Physician, your dear child may be beyond the reach of help. We beseech you therefore, as you value the lives of your children, keep this medicine by you in the house, and when your little cases take cold and commence coughing, give it in them at once, and rest not until the caugh is entirely subdued. We conscientiously aver, after the most extended experience, that if this advice were followed no child need ever

DIE OF CROUP,

for the cold would be cared, before it could arrive at this aggravated and fatal stage. Let every Mother, especially, heed well these return ks, that she may not be eafler, when mourning over the early blight of some cherished blossom, have occasion bitterly to repreach herself for her criminal neglect. It is an old adage, that "to be forwarned, is to be forearmed." Parents! so let it be in your case.
